Fund Services

IFSL Marlborough Multi Cap Income Fund Class P Shares

A Sub-fund of the IFSL Marlborough No2 OEIC (ISIN Income GB00B908BY75, Accumulation GB00B907VX32)

This Fund is managed by Investment Fund Services Limited (IFSL)

Objectives and Investment Policy

The aim of the Fund is to provide income, that is, money paid out from an investment as dividends from shares, as well as to deliver capital growth, that is to increase the value of your investment, over a minimum of 5 years. The Fund aims to deliver a greater income than the FTSE All-Share Index, over any 3 year period, after any charges have been taken out of the Fund, however, there is no certainty this will be achieved.

The Fund will invest at least 80% in the shares of companies and investment trusts listed on UK stock exchanges. This will include a range of small, medium and large companies, with a bias towards small and medium companies.

The Fund is actively managed, which means the manager decides which investments to buy and sell and when. Investments are selected based on individual company research.

The Fund invests in companies which the manager believes: • have the ability to increase their dividends and offer the potential for growth; or • companies which have previously paid steady dividends and are expected to continue to do so.

The Fund may also invest in companies which are listed on overseas stock exchanges, other securities which offer returns linked to the company performance, such as warrants, preference shares and convertible bonds, unquoted companies and other funds.

The Fund will normally be fully invested save for an amount to enable ready

settlement of liabilities (including redemption of shares) and efficient management of the Fund both generally and in relation to strategic objectives however may hold higher cash balances in extreme market conditions.

The Investment Association (IA), the trade body for UK investment managers, has created a number of 'sectors' as a way of dividing funds into broad groups with similar characteristics.

The Fund's investment policy puts it in the IA UK Equity Income sector. You may want to assess the Fund's performance compared to the performance of this sector.

The performance benchmark is the level of performance the Fund aims to deliver however there is no certainty this will be achieved. FTSE All-Share Index has been chosen as the performance target as the composition of the index is broadly similar to the holdings in the Fund.

The IFSL Marlborough Multi Cap Income Fund pays income. If you wish to receive this please tell us. If you do not want to receive income you will be given accumulation shares which means income is invested back into the Fund and reflected in the price of your shares.

You can buy or sell all or part of your investment on any business day subject to the minimum holding requirements.

Risk and Reward Profile

This indicator aims to give you a measure of the price movement of this share class based on past data. It uses historic returns over the last five years. If five years' data is not available, simulated data based on a representative portfolio are used.

Past data may not be a reliable indication of the future risk profile of the Fund. The risk category may change in the future and is not guaranteed. The lowest category does not mean risk free. The value of investments and the income from them may fall as well as rise and you may not get back the amount you originally invested.

This Fund has been measured as 6 because its investments have experienced high volatility in the past. The Fund's volatility is affected by various risks, including:

- The Fund will be exposed to stock markets and market conditions can change rapidly. Prices can move irrationally and be affected unpredictably by diverse factors, including political and economic events.
- The Fund will be exposed to smaller companies which are typically riskier than larger, more established companies. Difficulty in trading may arise, resulting in a negative impact on your investment. Shares in smaller companies may be harder to sell at a desired price and/or in a timely manner, especially in difficult market conditions.
- The Fund invests mainly in the UK therefore investments will be vulnerable to

sentiment in that market which may strongly affect the value of the Fund.

Risks which are not adequately captured by the risk indicator include:

The Fund invests in real estate investment trusts (REITs) and other companies or funds engaged in property investment, which involve risks above those associated with investing directly in property. In particular, REITs may be subject to less strict regulation than the Fund itself and may experience greater volatility than their underlying assets.

- In certain market conditions some assets may be less predictable than usual. This may make it harder to sell at a desired price and/or in a timely manner.

- In extreme market conditions redemptions in the underlying funds or the Fund itself may be deferred or suspended.

All or part of the fees and expenses may be charged to the capital of the Fund rather than being deducted from income. Future capital growth may be constrained as a result of this.

Dividends paid by companies are not guaranteed and can be cancelled, which may impact the Fund's ability to deliver an income to investors.

A more detailed description of the risks that apply to this Fund can be found in the Fund's prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment. The entry and exit charges shown are maximum figures. In some cases you may pay less - you can find this out from your financial adviser.

The ongoing charges figure is based on expenses for the year ending 31/07/2023. This figure may vary from year to year. It excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the UCITS when buying or selling units in another collective investment undertaking.

For more information about charges, please see Section 22 - 24 of the Fund's Prospectus, which is available at www.ifslfunds.com.

One-off charges taken before or after you invest

Entry Charge	0.00%
Exit Charge	None

This is the maximum that might be taken out of your money before it is invested.

Charges taken from the fund over each year

Ongoing Charges	0.85%
------------------------	-------

Charges taken from the fund under certain conditions

Performance Fee	None
------------------------	------

Past Performance

Historic performance to 31 December 2022

	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022
Fund	44.6	5.3	14.1	-3.2	18.9	-13.6	26.8	-12.4	21.5	-19.6
Benchmark	20.8	1.2	1.0	16.8	13.1	-9.5	19.2	-9.8	18.3	0.3
Benchmark 2	25.8	3.6	6.6	9.1	11.5	-10.5	20.1	-10.9	18.3	-2.2

Past performance is not a reliable indicator of future performance; the value of your investment and any income from it can go down as well as up.

Performance returns are based on the net asset value with distributable income reinvested and takes account of all ongoing charges, but not entry and exit charges. The past performance of this share class is calculated in GBP.

The Fund was launched on 1 July 2011.

This Share Class was launched on 31 December 2012.

Benchmark: FTSE AllSh TR GBP.

Benchmark 2: IA UK Equity Income.
